Dear GiftWrap Customer,

I am pleased to announce the release of **GiftWrap 4.2.6**.

GiftWrap 4.2.6 is a limited release that includes the addition of the 2012 IAR mortality table for use with state and custom reserve calculations, as well as a few, minor bug fixes.

These updates are further detailed in the GiftWrap 4.2.6 Release Notes contained herein. Please review these release notes before you use updated GiftWrap software.

If you have any questions, please do not hesitate to call PG Calc Client Services toll free at 888-474-2252. We look forward to helping you get the most out of GiftWrap 4.2.6.

Sincerely,

Gary M. Pforzheimer
President and CEO

1 About This Release

GiftWrap version 4.2.6 is a maintenance release that includes an enhancement to the state and custom reserve calculation function. A new mortality table, the 2012 IAR Table developed by the Society of Actuaries, has been issued and is being adopted by states that regulate charitable gift annuities for the purpose of computing reserve amounts. New York State and Washington State, as well as several other states, have confirmed that they will require the 2012 IAR table to compute gift annuity reserves for contracts issued on or after 1/1/2015. With this release, GiftWrap has been updated to include support for the 2012 IAR Table when running the Gift Annuity Reserves – State Method, and the Gift Annuity Reserves – Custom Method functions.

2 Support

Should you find a bug or encounter unexpected behavior in this release of the GiftWrap 4.0 application, please contact PG Calc at info@pgcalc.com or call PG Calc Client Service at 888-474-2252 for assistance and provide information describing the bug or unexpected behavior.

3 Fixed Issues and Enhancements

The following bugs have been fixed and enhancements have been added in this release.

Bug ID	Short Description	Status
41943	On the Change Password screen under the My Account link, the Cancel button is disabled.	Closed
42191	On the Remainder/Fund Beneficiary Search tab, when entering large person key, the system goes into a continuous processing state.	Closed
42662	Implement new 2012 IAR mortality table for use in Gift Annuity Reserves – State Method, and Gift Annuity Reserves – Custom Method calculations.	Closed

4 PGM Compatibility

Versions of PG Calc's Planned Giving Manager (PGM) prior to PGM 6.3, are not compatible with GiftWrap 4.0. As a result, you must upgrade to version 6.4 or later of Planned Giving Manager in order to successfully upload PGM gift files with the ".gftx" extension to GiftWrap 4.0. You must upgrade to PGM 7.0 and above to successfully import PGM export files with the ".biox" extension containing person and gift information. To upgrade to the latest version of PGM, contact PG Calc Client Services at support@pgcalc.com, or call 888-474-2252.

5 Browser Resolution

GiftWrap 4.0 is designed to display correctly with a minimum screen resolution of 1024 x 768.

6 Supported Browsers

GiftWrap 4.0 supports Microsoft Internet Explorer version 7 and above, and Firefox version 3.5 and above. Microsoft Internet Explorer (IE) and Mozilla Firefox have different implementations of their

respective JavaScript engines. It is generally accepted throughout the software industry that Firefox's JavaScript engine implementation is more efficient and performs better than that of Internet Explorer. At the same time, GiftWrap 4.0 relies heavily on JavaScript to maintain session state and to provide a seamless and satisfying user experience. As such, PG Calc strongly recommends the use of Firefox over Internet Explorer. That is not to say that IE won't work successfully with GiftWrap 4.0. It will. However, Firefox is faster. Note also that IE 8 and later incorporate an enhanced JavaScript engine, making IE 8 and later better choices for GiftWrap 4.0 than IE 7.

The following browsers are supported for operation of GiftWrap 4.0:

	Supported Browsers					
Operating System	IE 7	IE 8	IE 9*	IE 10*	IE 11*	Firefox 3.5 and above
Windows XP	√	√	n/a	n/a	n/a	√
